

— TEACHER PROFILE

Jo Mare *Kruger*

● 10 years experience

● Australian-trained

● At AIS since 2022

● Grade 6A homeroom

B.Ed (Primary), University of Melbourne. *ESL-endorsed; previously taught upper primary across two Australian state systems before joining AIS Sharjah. Currently teaching the full Grade 6 programme — English, Maths, Science, HASS, Arts, HPE and Technology.*

Jo Mare Kruger · Grade 6

HOW RATINGS ARE READ

Rating

scale

A single shared scale across all observation types — formal, walkthrough, probation, ESCM, OTP & APR.

Outstanding and **Very Good** are the two "at or above" bands; **Sound** meets expectation; the lower bands flag where targeted support is needed.

LEVEL & DESCRIPTOR	
O	Outstanding Consistently demonstrates a very high level of practice, applied independently across a wide range of contexts and observation types.
VG	Very Good Demonstrates a high level of practice, applied independently across most contexts.
S	Sound Demonstrates a sound level of practice, applied in some contexts; meets expectation.
D	Developing Practice is developing; targeted coaching or follow-up support recommended.
SR	Support Required Significant support required to develop the area of practice; structured intervention.

IE

Insufficient Evidence

Practice level not yet able to be established for this observation cycle.

FROM PAPER TO PRETTY WEBSITE

How we *build* this

01

JOB ONE

Form *conversions*

| *Paper & PDF observation forms become structured digital forms. One source of truth — no double-handling, no lost notes.*

- Digital SPEA, walkthrough, probation, ESCM, OTP & APR forms.
- Built for speed: observers complete during the observation, not after.
- Tablet- and phone-friendly; works offline, syncs on connect.
- Same field structure across all forms feeds the same database.

STEP 1 OF 3 · COLLECTION

02

Central *database*

| *Every observation, walkthrough and self-assessment lands in one place. Per-teacher, per-department, per-school — queryable, exportable.*

- Single source of truth for all observation data.
- Role-based access: SLT, observers, individual teachers.
- Audit log on every record — who, when, what changed.
- Export-ready for KHDA, accreditation and federation reviews.

STEP 2 OF 3 · STORAGE

03

Pretty *Data Representation*

| *The showcase layer. Same look-and-feel as the academic reports, drilling from school → department → teacher.*

- Per-teacher dashboards (slide 3 of this deck).
- Per-department views (slide 4 of this deck).
- School-level rollup for SLT & review-readiness.
- Branded, password-gated, exportable as PDF for reviewers.

STEP 3 OF 3 · SHOWCASE
